Observations	Inspector Comments
Describe the remodel work performed:	
Is the actual remodel work performed the same that was described/depicted on the remodel application and submitted floor plan? (If not, please explain how the work performed differs from the work described/depicted in the application):	
Were the facility's previous safety and security measures (alarmed access points, areas with glass break sensors, etc.) changed in any way as a result of this remodel? (if yes, please describe):	
If the facility's previous safety and security measures were changed during this remodel, can the pharmacy still maintain adequate and effective safety and security?	

Select one of the following options:		
I approve this remodel without any stipulations:	<input type="checkbox"/>	
I approve this remodel with the following stipulations: (List stipulations in inspector comments)	<input type="checkbox"/>	
I do not approve this remodel:(Please explain and list conditions that need to be met in order for this remodel to be approved in inspector comments)	<input type="checkbox"/>
